Railway Construction

25X1

the DRV Ministry of Public Works recently ordered a speed up of construction on the Vietnamese portions of the Yen Bay-Mengtzu and Langson-Nanning rail-ways. The portions on the China side of the border have already been completed and the Vietnamese portions are to be finished prior to June 1952. On 10 September an additional labor force, including volunteers from the Delta area and the engineering unit of the 320 Division, was assigned to the Yen Bay-Lao Kay section. The work now underway, which consists only of grading operations and bridge reconstruction, is being directed by Chinese engineers.
